Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

The Amendment, filed on September 11, 2009, has been entered and acknowledged by the Examiner. Claims 1-15 and 17-22 are pending in the instant application.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The claimed subject matter of "a surface of the at least one of the inner vessel and the outer bulb is altered to form a pattern" lacks proper antecedent basis in the specification.

Allowable Subject Matter

Claims 1-15 and 17-22 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, specifically for the limitation of an outer bulb, wherein a surface of at least one of the inner vessel and the outer bulb is altered to form a pattern configured to increase a diffuseness of the discharge arc, wherein the pattern includes structured arrangements formed on the surface, the structured arrangements physically overlapping over each so that a first structured arrangement is in physical contact with a second

structured arrangement in combination with other claimed features of the present claimed invention.

Regarding claims 2-15, 17, and 21, claims 2-15, 17, and 21 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 18, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 18, specifically for the limitation of an outer bulb, wherein at least one of the inner vessel and the outer bulb is altered to form a pattern configured to increase a diffuseness of the discharge arc, wherein the pattern includes structured arrangements that are physically overlapping over each other so that a first structured arrangement is in physical contact with a second structured arrangement in combination with other claimed features of the present claimed invention.

Regarding claims 19-20 and 22, claims 19-20 and 22 are allowable for the reasons given in claim 18 because of their dependency status from claim 18.

Conclusion

This application is in condition for allowance except for the following formal matters:

The specification has been objected to.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
